PAY EQUITY

7th and last payment

November 21 is the date of the seventh and last pay equity adjustment payment. It is the final instalment and will apply to the predominantly female job classes entitled to the pay equity adjustments. The new equity pay scales will take effect on November 21. They will not be retroactive and consequently the Employers will not have to issue new cheques.

When the paychecks covering the date of November 21 are issued, the employees concerned should make sure the Employer has made the appropriate adjustment and applied the hourly pay rate which incorporate the seventh instalment.

To view the equity pay scales, contact the local executive in your establishment, or see the "Equity" sections of the APTS portal or website. The equity pay scales appear in the 12th column of the hourly rate tables covering the period of November 21, 2007 to April 1, 2008.
